Taxation of Transient Herds.

At a meeting of owners of transient herds of sheep held in the office of the State Tax Commission at Phoenix on April 5th, thirty prominent wool growers unanimously passed the following resolution:

We, the undersigned owners of transient herds of sheep, being notified that the State Tax Commission intends to enforce the making of affidavits by such sheepmen in the State, and after due consideration and investigation of the whole subject, during which it was ascertained that a large number of affidavits have not been made-through one cause or another-and being informed by the Tax Commission that upon the making of affidavits by the sheepmen the Commission will enforce the distribution of the taxes to the counties entitled thereto by the several county treasurers charged with the responsibility of making the distribution, do each and all of us express our willingness and intention of making the affidavits as required by law and our entire approval of the action of the Tax Commission in its efforts to solve this problem.

During the conference held in January with the County Assessors it was brought to the attention of the Tax Commission that Maricopa, Pinal and Yavapai counties were not receiving their just proportion of transient herd taxes.

The law provides that owners of transient herds shall, when paying their taxes, make affidavit showing the number of head of livestock and the period such livestock have ranged during the calendar year in the different counties. The county treasurer is then required to immediately transmit copy of the affidavit and the taxes belonging to other counties to the state treasurer, who, in turn, properly apportions the money so collected to the counties entitled thereto.

The Tax Commission has undertaken to see that these laws are strictly enforced and an equitable distribution made of the taxes collected, and with this in view issued a call for the above mentioned meeting.

Constipation and Indigestion.

These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill. writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person. Adv.

Nature Cures. The Doctor Takes the Fee

There is an old saying that "Nature cures, the doctor takes the fee", but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tongue mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition. Adv.

Saves Eggs

Dr. Price's Cream Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, cornbread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by using an additional quantity of Dr. Price's Baking Powder, about a teaspoon, in place of each egg omitted. The following tested recipe is a practical illustration:

SPONGE CAKE

1 cup sugar
1/2 cup water
3 eggs
2 teaspoons Dr. Price's Baking Powder
1 cup flour
1 teaspoon salt
3/4 cup cold water
1 teaspoon flavoring

DIRECTIONS: Sift sugar and water until syrup spins a thread and add to the stiffly beaten whites of eggs, beating until the mixture is cold. Stir together three times, the flour, salt and baking powder, beat yolks of eggs until thick; add a little at a time flour mixture and egg yolks alternately to white of egg mixture, stirring after each addition. Add 3/4 cup cold water and flavoring. Mix lightly and bake in moderate oven one hour.

The old method called for six eggs and no baking powder
